

### **Neighborhood Petition Form:**

The Town of Fairfield takes its role in traffic safety very seriously. We appreciate the many complaints, requests, and suggestions we receive from various sources; because it helps our staff develop a safer transportation system. Due to limited resources, we cannot always respond quickly to your concerns or ideas. This does not mean that we do not value your input or appreciate your concerns. Many traffic and parking situations take considerable time to study and evaluate possible solutions. Quick solutions are often less effective in the long run. More appropriate solutions may cost the taxpayers more money, but we must prioritize the spending of our budget across the entire town. A potential problem in one part of town must be weighed against current needs in other areas.

In consideration of the above, we developed this **Neighborhood Petition Form** (NPF) for your use. Through this form, neighbors are encouraged to identify and discuss issues affecting them. Our goal is to have neighbors reach consensus on the problem and formulate a possible solution. Once a consensus is reached, it is required that the NPF be completed and forwarded to the Fairfield Police Department- Special Services Division.

As a resident of Fairfield who has identified a potential traffic safety issue, it is important that you involve your neighborhood in the possible solution. Our intent is to focus on the most important parking and traffic conditions in town, as neighborhood consensus is reached. This practice will ensure our best use of staff time and available resources.

Thank you for your cooperation and understanding.
